Were you deployed in the Gulf War in 1990-1991?

The Roskamp Institute, Inc.
is conducting a clinical research study to determine if a blood test can be developed to diagnose Gulf War Illness. The study will involve one visit where a participant will complete several questionnaires, memory testing and provide a blood sample for research purposes

Principal Investigator: Laila Abdullah, PhD.

Study Title: Identification of Gulf War Illness (GWI) Biomarkers

Contact: Megan @ 941-256-8018 ext 3096

Disclaimer: This study is not VA research and is not conducted by the VA. The study has not been reviewed by VA IRB (reviewed and approved by Western Institutional Review Board). This study is not endorsed by the VA and the VA is not responsible for any costs incurred by a veteran who enters the study as a research subject.

This flyer is distributed at the VA for informational purposes only.
